

General Purpose Spirit Laboratory

Thermometers

These thermometers use specially selected filling materials covering temperatures down to -200°C. Normal fillings are coloured red on a white glass, but alternative colours are available as shown. The -200°C range thermometers are filled with a colourless liquid. Thermometers are normally supplied with the non roll cap with ring.

155mm Red Spirit Laboratory Thermometers

Available in Total Immersion only

Range	Division	Immersion	Product No
-10+50°C	1.0	Total	44/450/0
-10+110°C	1.0	Total	44/430/0

For trade price & delivery: Please [contact us](#) for details.
